

AGPR-RECYCLING LIST

AgPR guarantees the collection and recycling of
post-use PVC floor-coverings and PVC residues:

Homogeneous coverings
(one-layered, patterned)

Heterogeneous coverings
(PVC surface on a PVC underlay)

System flooring
(thicker PVC surface layer on PVC foam underlay)

Cushion Vinyl floor
(thinner PVC surface on PVC foam underlay)

PVC Wall-coverings
(PVC surface on PVC foam)

PVC Welding rod

Cement and glue residues need NOT be removed!

The following floor-coverings cannot be accepted:
(they cannot be recycled at the AgPR plant)

Textile coverings, textile composite coverings, cork floorings, linoleum, rubber floorings, PVC floorings on non-PVC-foam, PVC floor on jute, coconut or polyester felt, self-adhesive PVC floorings, PVC floorings on cardboard, cardboard coverings (Stragula, Balatum), coverings potentially containing asbestos (such as "semi-flexible" tiles, cushion floors on asbestos paper, etc.), wooden floorings, wallpaper, bitumen coverings along with all the other disposable residues associated with the removal of old floor coverings.

ACCEPTANCE CONDITIONS OF THE AGPR FOR THE UTILIZATION OF USED PVC FLOOR-COVERINGS

1. Only sorted post-use PVC floor-coverings and PVC offcuts – which conform to the AgPR recycling list – can be accepted and utilized at the AgPR's collection centres.
2. The material should not have been compacted.
3. Cement or glue residues adhering to the PVC do not present a problem; provided their weight is markedly less than that of the PVC floor-covering.
4. We are unable to accept PVC floor-coverings which are contaminated by oil, solvents or other dangerous substances.
5. The costs of disposing of delivered material which cannot be utilized in the recycling process will be charged to the supplier of that material.
6. If the amount of non-utilizable material in one single delivery exceeds 5 %, the AgPR will be compelled either to refuse acceptance of the delivery or to charge the supplier for the sorting , the returning of the unwanted material or the disposal of non-recyclable material.
7. It is recommended that an appointment be made with the appropriate collection centre before delivery. The address of the nearest collection centre can be obtained from the AgPR.
